### Payment and Shipping

You must choose a payment method.

'Optional' - Allow item to be bought without having taken the funds.

'Required' - Payment must be verified by the web site, before item can be sold.

'Not Allowed' - Item can be sold only by the seller manually. It is then up to the seller to decide how to get paid.

The only form of online payment accepted is through PayPal. This ensures peace of mind to both the seller and the buyer. In this case you have to enter your PayPal email address where you wish to receive the payments. Additional payment instructions can be entered. If needed shipping costs can also be inputted.

For Classified Ad's no payment details can be entered since Classified Ad's are actually adverts for the buyer to contact you.
